ABOUT ME

I'm a software development student passionate about web development. I have a background in communications and sociology, which helps me understand user needs and work well in teams. Currently in my final semester of a software development diploma and excited to start my career as a developer.

TECHNICAL SKILLS

- **Languages:** JavaScript, PHP, HTML, CSS
 - **Frameworks:** React.js, Node.js, Express.js
 - **Database:** MongoDB
 - **Tools:** Git/GitHub
 - **Focus:** Web development and responsive design
-

PROJECTS

Event Management App

Built using React, Node.js, Express, and MongoDB. Users can create and manage events, with features like user registration and event listings. This was my biggest project so far and taught me a lot about connecting frontend and backend.

Weather App

Simple weather application using HTML, CSS, and JavaScript. Shows current weather conditions for different cities. My first real JavaScript project that got me excited about programming.

More projects in development - check my GitHub for updates!

EDUCATION

Diploma in Software Development (Expected February 2026)

Institute of Software Technologies, Nairobi

Currently in final semester

Bachelor of Arts - Sociology & Communications (2024)

University Of Nairobi

Nairobi - Kenya

Certifications:

- Software Development Certificate (2024)
 - ICDL Certificate (2021) - IAT Nakuru
 - Trainer of Trainees - NCIC Kenya
-

EXPERIENCE

Volunteer at YMCA Kenya (3 years)

Participated in community activities like game nights, movie nights, and hiking events. Completed training as a Trainer of Trainees with NCIC, which helped me develop leadership skills and learn how to work with diverse groups of people.

OTHER SKILLS

- **Languages:** English (fluent), Kiswahili (native)
- Good communication skills from my communications background
- Enjoy working in teams and helping others learn
- Quick learner who loves figuring out new technologies

WHAT I'M LOOKING FOR

I'm looking for an entry-level software developer position where I can grow my skills, especially in web development. I'm particularly interested in companies that value learning and teamwork.
